

# POWDER GUN COMPARISON CHART

	Recommended User	Adjustable KV Range	Total Air Outlets	Independent KV & uA	Compatible with Box-Feed / Fluidizer	Warranty	Controls
<b>Kool Koat Quik Shot</b>	Hobbyist / Beginner	N/A	N/A	N/A	N/A	N/A	Manual
<b>Hyper Smooth 02 LED Basic</b>	Beginner	0-100	1 - Regulated	No	No	1 Year	Manual
<b>Hyper Smooth 02 LED</b>	Intermediate	0-100	1 - Regulated	No	No	1 Year	Manual
<b>Hyper Smooth 03 LED</b>	Intermediate	0-100	2 - Regulated	No	Yes	1 Year	Manual
<b>Kool Koat 2.0 DPW</b>	Intermediate / Professional	0-100	1 - Regulated 1 - Unregulated	No	No	1 Year	Manual
<b>Kool Koat 3.0 DPW</b>	Professional	0-100	2 - Regulated	No	Yes	1 Year	Manual
<b>Kool Koat HD</b>	Professional	0-100	3 - Regulated 1 - Unregulated	Yes	Yes	3 Years	Manual

**Hyper Smooth 02 & 03** - These systems use our standard LED motherboard.

**Kool Koat 2.0 & 3.0** - These systems use our DPW motherboard. DPW stands for Digital Pulse Wave, which helps combat the Faraday Cage Effect when coating parts with complex shapes.

**Kool Koat HD** - This system has independent KV & uA. This allows for more precise control and adjustment of the powder charge, and it helps combat the Faraday Cage Effect when coating parts with complex shapes.
